

Dr. Nathaniel R. Bridges

Words to Live By: A 1% chance is better than no chance... I'd rather try and fail than not try at all.

You don't have to be the smartest person in the room to make a difference. Everyone has something special to offer.

Dr. Bridges is a highly accomplished engineer and community leader. He has received extensive recognition in the biomedical engineering sector and spends his volunteer time mentoring young engineers and scientists.

Dr. Bridges spends his personal time sharing his life with his beautiful wife, Tavonne Bridges, and spirited daughter, Kennedy Bridges.
